RELEASE NOTE VERSION 1.9.1 ID ISSUER

Version 1.0

February 2020

Bundesdruckerei GmbH
Kommandantenstraße 18
10969 Berlin

1. Changes in Release Version 1.9.1

1.1 *Important Note in General*

General bug fixes in GUI and API.

1.2 *Language Selection for SMS and Email*

Onboarding: During onboarding user can choose the language (German/English) for the SMS and Emails from the ID Issuer.

Self-Management: User can change the selected language for the SMS and Emails from the ID Issuer.

1.3 *Purchase Order*

Self-Management: It will not be validated anymore if a purchase order ID already exists.

1.4 *Download of physical upUIs*

Self-Management: Physically ordered UIs can be dowloaded electronically.

1.5 *Display of Purchase Orders*

Self-Management: The purchase orders will be sorted by decending order date.

1.6 *Automatic TLS-Certificate renewal*

Self-Management: User will automatically receive a new TLS certificate and password before the current one expires.

1.7 *Recall Codes*

Self-Management: The download of the electronic UIs contains the recall code for those UIs.

The API specification version 1.0.10 applies.
